

Daniel

I would like to say that I found the experience of working with you very efficient - from the initial start up, to getting the logos and proofs to us and for the quick turn around in getting these produced, especially in the run up to the Christmas period.

We held a very successful Stress Day on the 10th January in our local shopping centre and all 1000 men and women stress balls went within a matter of hours (and now we wished we had ordered more) - we will be having a day again next Wednesday for Valentines day and giving away the 500 hearts, which I am sure will go just as quickly.

Thanks once again for all your assistance and rest assured that we will consider using you again as we plan to run this on an annual basis.

Regards

Edward Braisher
